

I am against changing Indiana's no call list for telemarketers. I used to receive two or three calls a day prior to putting my phone number on the no call list. Since Indiana put the no call list in place; I get none. I feel I have the right to protecting myself from being bothered by rude and obnoxious telemarketers. I have never purchased anything from one. I have asked to be removed from their call lists to be told one doesn't exist. I enjoy my privacy and the benefits of spending my evenings with my family and not being interrupted during the few hours a day I have with them. PLEASE DO NOT CHANGE INDIANA'S NO CALL POLICY.
